

From Corona: travel approximately 2 miles north of the village on Hwy 54 across the railroad tracks via an overpass. Immediately past the overpass there will be a small white house on your right. Turn here and cross cattleguard. You are now traveling east on Torrance County C020. Continue approximately 7.5 miles to the NMSU entrance cattleguard. Just after the cattleguard, take the road to your right along the fence line. Just past two brown storage tanks the road will fork. Follow the signs and veer left on the road and the SWCRS will be just ahead in the trees.
